## EDITORIAL

If this year 2024 continues to be special in many ways, the success of the Paris Olympics is undeniable and in this month of September, that of the "para" and the smiles of its athletes give balm to the heart.

A little flashback...

On June 21 and 22, a "Culture Marathon" in partnership with SMAVLOT and the community of communes took place in Monflanquin. It allowed to highlight structures, events and artists in the fields of visual arts, arts and crafts, events and transmission.

On July 2, a new guide "Bastides du Lot-et-Garonne", Sud Ouest editions, was presented and its marketing launched in Monflanquin. The event took place under the high corner in front of the Tourist Office "Cœur de Bastides" in the presence of its author Pierre SIMON and François DAILLEDOUZE, mayor of Caudecoste and president of the association of Bastides of Lot-et-Garonne.

We welcomed the Tour de France to the Aurillac-Villeneuve-sur-Lot stage on July 11. A fan zone was set up in partnership with the JA (Young Farmers), the FDSEA (Departmental Federation of Agricultural Workers' Unions), Groupama and the local associations that responded. Around 4,000 people took part in the event. It was very moving to see the bastide on the big screen and almost simultaneously see the riders passing on the D 676 after the caravan...

This year we are celebrating Janouille's 30th anniversary with the installation of 30 photos in the country house, the publication of a book and various events, the next of which is a group of 30 bagpipes on October 5 and 6.

Still coming in October...

The Station Verte label is 60 years old this year and its 2024 congress will be held in Monflanquin on October 9 and 10 with a market organized on October 9 on the Place des Arcades. Monflanquin has been a Station Verte since 1964! This label highlights the ever-necessary links between tourism, the environment and ecotourism.

The group "Nature & Progrès 47" is also celebrating its 60th anniversary in Monflanquin on Saturday October 12 from 2 p.m. and invites neighboring departments, theater, catering and concerts on the menu!

A new and important event to also honor the bastides of the department "Bastides en fête" will take place on October 18, 19 and 20 with activities and puzzles for adults and children in each of the participating bastides. Castillonès, Villereal and Monflanquin are among them!!!

A rich autumn 2024 after a summer season punctuated by our permanent events such as, among others, the producers' markets, the exhibitions of the Salle d'Aquitaine, "Les Soirées Baroques" and the "Fêtes Médiévales", "Sous le Préau", the open-air cinema and beautiful concerts for July 14 and early August. All of them, once again, met their audience, even more numerous this year. A big thank you to all the volunteers, our agents and the young people hired this summer! A retrospective in pictures in this newsletter.

Our hope is that this late season will best compensate for this month of July 2024, which various elements (the weather being one of them) have somewhat disrupted.

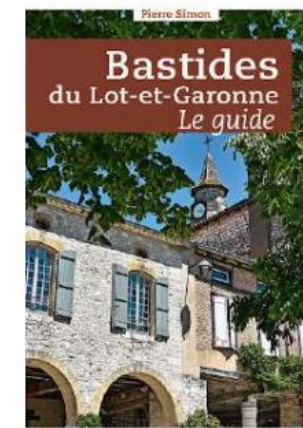

With the start of the school year, launched by the "Foulées monflanquinoises" for the 17th year, all our sports and cultural associations have resumed their activities and welcome you with

pleasure both as volunteers and simply to participate in an activity.

Our choice is to support them as best we can, as we do for our schools, our public services and the public. Our municipal swimming pool has seen its attendance increase this year.

Even though times remain uncertain, we continue, as we always have, to "adapt" to the situation. May these last months of 2024 be as pleasant as possible for you!

### A big thank you to Thierry MONTURET

Thierry MONTURET has been a young retiree since September 1, 2024 .

When he arrived in 1999, he replaced Jeannot CAUJOLLE, who was in charge of the stadium at the time.

At the request of Daniel TATTO, he passed the transport license together in 2012.

Since 2014, he has been replacing school buses in the Catès, Corconat and Sauvetat-sur-Lède area, as well as regularly providing shuttles for sports and the swimming pool to Libos.

In winter he takes care of road maintenance, in spring he takes care of the paths in the town which he knows perfectly and in summer he takes care of the swimming pool.

Passionate about cycling, we wish him a good journey into his retirement...

A magnificent 2024 edition even if the rain invited itself for the second time in 17 years to the Coulon site!

The Foulées attracted slightly fewer runners this year and there were far fewer walkers, particularly children, due to the weather.

The morale of the 60 volunteers involved was not affected, however.

Get your sneakers on for the 2025 edition.

News from the pool.....

The weather was nice this summer, sometimes very hot!!! Ideal weather for the attendance and finances of the municipal swimming pool!

4,732 entries in July.

5,751 entries in August, that's 2,774 more entries than in 2023. We can only be happy about that!

Every year, bathers eagerly await the opening of the swimming pool. It must be said that the place is welcoming, at the end of June the water lines were repainted, which has considerably embellished the pool, always very well maintained by the municipal agents, we thank them for their involvement. Thanks also to HéliA RABOT in July and Éponine MÉRIGOT in August for their very warm welcome at the pool cash desk.

The pools were supervised as every year in July by Francis ANDRAC, Bernard KAMALEU and Gérard SOBRINO from the Prosport association in August. The pool closed on the evening of September 1st, the day before the start of the school year. Reopening next summer!

## OPERATION ONE CHILD ONE TREE

In 2023, we planted 15 trees as part of this operation.

We are renewing this initiative for all children born in 2024 and living in the commune of MONFLANQUIN.

Each tree will have its first name and year mentioned. birth of the child.

We therefore invite the happy parents to contact the town hall before October 31, 2024 so that they can register, give their authorization and specify the choice of their tree among the following 6 species: holm oak, cork oak, downy oak, service tree, field maple and rowan.

The tree planting will take place with parents and their child on the occasion of Saint Andrew's Day.

NB: Some trees planted in 2023 will be replaced in the fall.

## THE WORD OF THE OPPOSITION

On the fringes of the new school year, let's prolong the memory of the past weeks, because it is through summer escapades, including very local ones, that we can compare and therefore measure the attractiveness rate of our town: maintenance, renovation, beautification, flowers, reception, entertainment, commercial dynamics, etc. unfortunately we are far from the mark in Monflanquin, proof of this is when we stroll on the Place des Arcades, deprived of restaurants, leaving room for an abyss.

Perhaps this is why the municipal majority did not consider it necessary to take advantage of the passage of the Tour de France to increase signage and any other audio-visual visibility support, for example, in order to attract tourists to the town?

What a missed opportunity! So for this reason and many others, we are calling for a unifying enthusiasm that would be welcome around an ambitious municipal project, finally...

We wish you all a good start to the new school year with sharing, desire, ideas to explore and courage...

Yours sincerely,

Laurence MARQUIS, Lianne DE JONGE, Eric SARRAZI, Philippe FURLAN.

### Procedure for resuming burials

© C. CANCER

## OLD CEMETERY FROM MONFLANQUIN

We inform you that a **second procedure for the resumption of burials** will be put in place. It concerns, more specifically, **burials known as common ground for which there has been no known concession purchase deed**. It will begin in October 2024, before All Saints' Day, and will end on November 31, 2024. These burials will also be indicated by a sign with a yellow display to differentiate them from the first procedure for the resumption of concessions in a state of abandonment.

As a reminder (see June 2024 bulletin), the first procedure for taking back concessions in a state of abandonment is still in progress and will end on December 1, 2025.

We therefore invite and thank anyone directly or indirectly connected to the graves concerned to contact the town hall.

I remain at your entire disposal for any further information.
