MUNICIPAL BULLETIN N°41

An aerial photograph of the Monflanquin region. In the foreground, a large, dense forest of green trees sits on a peninsula or island in a calm river. The river reflects the sky and the surrounding landscape. In the middle ground, a residential area with various houses and buildings is visible, interspersed with green fields and more trees. In the background, a hill rises, topped with a cluster of buildings, including what appears to be a church or a castle. The sky is a pale, hazy blue, suggesting a clear day.

## MONFLANQUIN AND VITAMONT HIGHLIGHTED BY THE MINISTER VERONIQUE LOUWAGIE

On Friday, March 21, 2025, the VITAMONT company, recognized as one of the French leaders in organic fruit and vegetable juices, welcomed Véronique LOUWAGIE, Minister Delegate for Trade, Crafts, SMEs and the Social and Solidarity Economy. During this visit, the Mayor of MONFLANQUIN, Nathalie FOUNAUD-VEYSSET, was able to remind her of the importance of this virtuous SME and the organic farming sector for our town, a key sector of our local economy, essential for the sustainability and visibility of our department. As a reminder, MONFLANQUIN has been labeled "committed organic territory" since 2015.

## 80th COMMEMORATION OF THE ARMISTICE OF MAY 8, 1945 WITH LIVIA

We also remember the first vote for women in the municipal elections of April and May 1945.

# EDITORIAL

Given the general context, we can enjoy and savor the fact of being able to live in our region and community of municipalities.

We are very pleased to welcome Pierre-Louis BOURNOVILLE, the new doctor at the MONFLANQUIN health center.

Two associations, DESCARATZ and LE BELVEDERE, have decided to locate their headquarters in MONFLANQUIN. This is another opportunity to highlight the rich and diverse community fabric in our town, which continues to grow in all areas.

All the activities and events throughout the seasons demonstrate this to us and the summer period will, once again, allow us to appreciate our summer "emblematic" events such as the Baroque Evenings and the Medieval festivals and I would like to thank all of our municipal agents for their investment in these events.

Our town remains attractive and lively all year round, even though, of course, July and August are the months when we have the most visitors and holidaymakers.

Dynamism is also evident when new facilities are added. We are delighted to welcome two additional art galleries, a brasserie in the heart of the bastide, and a "boutique et délices" at 59 Route de Villeneuve.

Consuming local products is obviously important to promote and develop our "territorial network".

I thank the street vendors and producers who come every Thursday morning, all year round. This weekly market is a real treasure, and it's in everyone's interest to support it. On July 3, the Thursday evening farmers' markets will begin and will run until September 4. The "small summer markets" organized by the ACAM are scheduled to be held on Sunday mornings at the entrance to the bastide starting Sunday, June 29.

There is rarely any synchronization between "administrative time" and "elected officials' time," but municipal projects are moving forward. The contract for the City Stade (sports ground, on the former basketball court) will be launched. The development of the "garden" and the Tonnelle parking lot, under the responsibility of the municipality, is under study and "well underway," and the building permit for 32 rue de l'Union (accessible to France Services and Espace Numérique) must be submitted before the summer.

While some events are organized jointly with associations, such as the music festival with ACAV, others are organized directly by the town hall, such as July 14th, open-air cinema, concerts, etc., you will find in this bulletin the entire "intense" program for the days and months to come.

I say it and I write it, we are very lucky to live in this Southwest of France, the commune of MONFLANQUIN is very beautiful, it is up to us to appreciate as best as possible what is already given to us. Happy end of spring and beautiful summer to all!

Nathalie FOUNAUD-VEYSSET  
Mayor of Monflanquin

PS: Despite all the steps and actions implemented, the commune of MONFLANQUIN has not been recognized as being in a state of natural disaster for the year 2024.

## MONFLANQUIN SPRING FAIR 2025 EDITION

On Sunday, May 11, Monflanquin hosted the Spring Fair, organized by ACAM (Association of Traders and Craftsmen of Monflanquin) and the FREM (Making Sick Children Dream) association. It was a lively day, which brought together a large audience who came to enjoy the activities offered in the village.

The farmers' market, located in the upper town on the Place des Arcades, attracted many visitors from the moment it opened. Local products—honey, wine, cheese, beer, prunes, hazelnuts, and charcuterie—were a great success. The colorful nursery also won everyone's approval: a plant festival that brightened and delighted gardening enthusiasts.

Throughout the day, the village vibrated to the rhythm of musicians, and the stands of artisans and exhibitors of gardening equipment completed a rich and varied offering.

In the lower part of the village, near the La Marmaille restaurant, families enjoyed a clothes swap, children's activities, a merry-go-round, a raffle and a plant sale, creating a festive and intergenerational atmosphere.

Monflanquin at the Tournament of the Most Beautiful Villages of France

From May 29 to 31, 2025, the picturesque village of Séguret (Vaucluse), nestled at the foot of the Dentelles de Montmirail, hosted the 26th edition of the Most Beautiful Villages of France veterans football tournament. This event brought together 17 teams from certified villages from all over France to compete in friendly competition.

Under sweltering heat, the Monflanquin team, led by Hervé LIABASTRE, valiantly defended its colours and finished in 12th place in this demanding tournament.

THE TRAIL OF THE MOST BEAUTIFUL VILLAGES OF LOT-ET-  
GARONNE : A SUCCESSFUL FIRST EDITION !

Initiated by the five town halls of the Most Beautiful Villages of France in Lot-et-Garonne and the three Tourist Offices in the north of the department, the very first PBVF Trail of the 47 was a great success!

Fifty-three teams of four runners took part in this 56-kilometer sporting adventure, divided into four stages over two days:

Villereal-Monflanquin: 16 km  
Tournon d'Agenais-Dausse: 18 km  
Dausse-Penne d'Agenais: 11 km  
Penne d'Agenais-Pujols: 15 km

Despite the unpredictable weather, which alternated between sun and rain, the atmosphere remained warm and friendly. Participants, both runners and those accompanying them, were able to enjoy the start and finish areas located in the heart of each village.

In Monflanquin, the finish of the first stage on Saturday, May 10, in the Place des Arcades, was followed by a pasta party much appreciated by the volunteers, the runners and their companions.

COMMUNITY GARDEN in MONFLANQUIN

The town hall makes available to the **DESCARATZ association** the land located at 25 Tour de Ville. The goal is to recreate a shared garden.

Descaratz will manage it and hopes to make this place a living, welcoming and nourishing space for the land, but also a meeting place for residents.

She invites anyone who wishes to come and garden alone or with family, learn, share or simply have a good time and meet people.

**Meet every Saturday from 5 p.m. to 8 p.m. Departure from the cultural café at 5 p.m.**

TWINNING BETWEEN SIPHNOS AND MONFLANQUIN

**Students from our local high school, Marguerite FILHOL, discover Greece thanks to Erasmus**

In the second week of April 2025, forty first-year students from the Marguerite FILHOL high school in Fumel had an unforgettable experience on Siphnos, an emblematic Greek island in the Cyclades, as part of an Erasmus project.

Supervised by their teachers and warmly welcomed by the Siphnos town hall and the twinning committee, the high school students had the opportunity to discover a different educational system, immersed in the island's twinned school. The mornings were devoted to educational exchanges, while the afternoons were dedicated to discovering Hellenic culture, local traditions, and the island's rich heritage.

A visit to Athens, where students explored the wonders of ancient Greece, from the Acropolis and the Parthenon, to several museums and historic districts of the capital.

ARTISTIC PATHWAY IN ELEMENTARY SCHOOL

Workshop by Cécile MARQUES and the CP class © J. MONTURET

On Friday, April 4, in the elementary school courtyard, the CP class presented its exhibition with work on emotions with the artist Marie Cécile MARQUES and Pollen.

Sophie BORDERIE, President of the Departmental Council, and Jacques BILIRIT, its head of culture, were visibly impressed. The school's murals and the numerous drawings on display captured their attention.

Accompanied by their parents, they were able to admire this restitution, saluting the already very strong expression of these young "budding artists".

WHAT'S NEW FOR 2025 IN THE COMMUNITY OF COMMUNES

Community aid to reduce our waste:

Plants are a resource for our gardens. Compost, wood chippings, and mulch nourish and protect the garden.

The CCBHAP wishes to encourage the management of plants at home by offering aid according to the terms below, for the year 2025, for shredders and mulching mowers to allow CCBHAP residents to limit contributions to the recycling center.

Aid for the purchase of washable diapers for children or reusable sanitary protection is still possible in 2025

The Recycling Corner

Setting up a “ Recycling **Corner** ” in each recycling center to enable reuse and provide a positive solution by creating a clean and tidy space.

The principle: everyone has seen something at the recycling center they'd like to recover, and everyone has thrown away something that could still be useful. To accommodate these rapid recoveries, the CCBHAP set up dedicated recycling areas in 2025 where residents can freely and freely drop off and recover items.

Video surveillance

Video surveillance of voluntary drop-off points: a system to combat fly-tipping.

Faced with the increase in antisocial behaviour and fly-tipping around voluntary drop-off points (VDPs), the community of communes has decided to strengthen surveillance of these areas by gradually installing video surveillance cameras.

This measure aims to prevent disrespectful behavior, improve the cleanliness of sites and reduce management costs borne by the community.

As a reminder, the abandonment or illegal dumping of waste at collection points or on public roads constitutes an offense, punishable by a fine of a minimum of €250 and up to €1,500, or even more in the event of aggravating circumstances (Article R.632-1 of the Criminal Code).

This system is part of a comprehensive approach to environmental preservation, respect for public spaces, and empowering users. The municipality thanks all residents who properly sort and dispose of their waste, thereby contributing to a cleaner and more sustainable living environment.

DEPARTMENTAL LABEL CITIES AND VILLAGES FLOWERED

In view of the State's financial restrictions, the person in charge of this departmental label informed us that there would be no selection or award ceremony this year, 2025.

Our municipal label for flowery houses and gardens, for its part, is maintained.

Don't hesitate to register!

THE WORD OF THE OPPOSITION

Dear Monflanquinoises and dear Monflanquinois,

The opacity of this spring's municipal budget offers us no more perspective than the vagueness of the illegible projects of municipal governance!...

There is therefore nothing reassuring in this troubled period which would nevertheless merit effective and enterprising local anchoring. Unfortunately, the majority is not responding, drowning in self-management of emergencies that are always as poorly managed as they are poorly distributed. This is very worrying...

So in order to help everyone and do ourselves some good, with the beautiful days and the nice season, we will consume local products. Enjoy the sunny terraces of the bars and restaurants in our village, the shops, the local products and the many activities organized by our associations.

Dear Monflanquin residents, we wish you a wonderful summer and take care of yourselves.

We are always there to support you, knowing that your thoughts and ideas are the hope for the future of municipal construction...

Yours faithfully,

Laurence MARQUIS, Lianne DE JONGE, Éric SARRAZI, Philippe FURLAN.

WORKS

RESTORATION OF THE RETAINING WALL ON THE TOWN TOWER IN MONFLANQUIN

The municipality of Monflanquin recently began work to restore the retaining wall located on the Tour de Ville, following an incident that weakened the structure.

In fact, this wall had been damaged by a vehicle, which caused the structure to sink and compromised its solidity. In order to guarantee the safety of users, an intervention was necessary.

The company Pascal SCULLIER, specializing in masonry and stone cutting, was commissioned to carry out this renovation in accordance with traditional techniques and local aesthetics.

The municipality thanks local residents for their patience and understanding during the construction period.

INFORMATION CEMETERIES

The Monflanquin Town Hall's green spaces team, Nicolas, Éric, and Dylan, are responsible for maintaining the Monflanquin cemeteries. Numerous operations are carried out throughout the year.

Regarding the spring-summer schedule for mowing grassy areas, the passes are carried out as follows:

ÿ From April: every 15 days,

ÿ In May and June: every 10 days,

ÿ In July, August and September, approximately every 15 days, variable depending on the weather.

It takes the team 36 hours to mow the eight cemeteries. It only works on municipal property. The concession holder (or their beneficiaries) must maintain their concession and the plants planted there.

These should under no circumstances cover the intergraves or invade neighboring plots. It is also reminded that any potted flowers must be placed in the containers reserved for this purpose. Thank you for your attention and understanding.

I am at your disposal for any information.

## IDENTITY CARDS AND PASSPORTS

Monflanquin Town Hall is open by appointment only for all your identity card and passport matters.

You can begin the renewal process six months before your current permit expires. This ensures your document is always up-to-date.

Online pre-application for passport or national identity card, <https://passeport.ants.gouv.fr/demarches-en-ligne> does not exempt you from personally submitting your application to the town hall. This is a security measure to prevent identity theft.

If you need help with your online pre-application or to make an appointment, France Services agents in Monflanquin are available at 05 53 36 60 70.

## RISKS RELATED TO THE HEAT WAVE 2025

The recurring nature and health impact of heatwaves lead the municipality to pay particular attention to the elderly and/or vulnerable.

The CCAS keeps a register of these people in order to ensure that they are well in the event of a heatwave and to intervene if necessary.

If you wish and are not yet registered, you can contact the Town Hall at 05 53 36 40 05.

We will take the time to discuss your situation with you and gather the necessary information.

## Parking Space ARCADES

## FACADES SUBSIDY AND JOINERY

The municipality of Monflanquin is offering financial assistance for the renovation of facades in the heart of the town in order to help beautify the village, preserve its architectural heritage and encourage owners to invest in the renovation of their properties.

### Here are the main terms of this grant:

• The municipality covers 25% of the total cost of the work (excluding taxes), with a ceiling of 1,500 euros per request.

• The grant applies to the renovation of facades and woodwork.

• Owners must have obtained all necessary administrative authorizations before starting work.

• Payment of the grant is conditional on the work complying with the authorizations granted.

For more information, it is advisable to contact Monflanquin town hall directly.

## WORKS IN THE BASTIDE

Work is banned in the town of Monflanquin during the summer.

For reasons of public safety and good order, all work is prohibited in the center of Monflanquin **from June 15 to September 15** each year. This measure aims to prevent accidents due to the significant increase in the number of visitors in July and August.

However, in the event of a proven emergency, exceptional authorizations may be granted by the Mayor of Monflanquin.

Parking prohibited on Place des Arcades, traffic on Rue Saint Pierre side from June 1 to September 30.
