EDITORIAL

of the Mayor

Dear residents of Monflanquin,

First of all, I hope you had a wonderful summer and that you were able to fully enjoy this period, despite the difficulties and concerns that we all face on a daily basis.

It is with pleasure that we welcome you back for this second edition of our municipal newspaper.

It has now been seven months since we took responsibility for our municipality. Seven months during which, with all the elected officials, we have been working daily, with seriousness and determination, to move Monflanquin forward, to make it ever more aerodynamic and to best respond to the many expectations that you express to us.

I would also like to return to an important point following the minority's statement published in our previous municipal bulletin.

Contrary to what may have been suggested, we are fully involved in the CCBHAP. The elected officials of the majority and I actively participate in the various inter-municipal commissions and bodies.

For my part, I sit on the Children, Youth and Sport, Roads, and Environment and Waste committees. I also serve as Vice-President of ValOrizon, particularly in connection with our landfill, and as Vice-President of Territoire d'Énergie Lot-et-Garonne (TE 47) for matters related to renewable energy.

I am also an administrator of SEM AVERGIES (AVERGIES, a local public company producing renewable energy in Lot-et-Garonne) not to mention the various other commissions and external bodies in which I participate.

To date, and unless I am mistaken, the two elected members of the minority do not sit on any of the numerous inter-municipal committees. I wanted to clarify this so that everyone can have complete and objective information on the involvement of our town's elected officials within the CCBHAP and the various bodies in which we participate.

This investment requires time and energy, but it is essential. Being mayor means being present, listening, working with the various partners and, wherever necessary, defending the interests of our municipality and its inhabitants.

Together with the entire municipal team, we are therefore continuing our work with the same determination: to take concrete action for the well-being of Monflanquin, to remain attentive to your needs and to prepare the future of our community.

Finally, I would like to thank you for our discussions, your comments, your suggestions, and your trust. It is with you and for you that we wish to continue moving our beautiful community forward.

Happy reading to all.

THE AGENTS

WORKS EMBELLISHMENT CLEANLINESS

France Services Building
32 rue des Arcades

Following the completion of a further study, the renovation work is currently on hold.

Indeed, upon receipt of the conclusions of this study, it is necessary to put in place a supplementary contract for the construction of the floor, for an estimated amount of €55,000.

It is regrettable that these studies were not carried out prior to the start of the works by the team in place which launched these works during the previous term.

Their prior implementation would have made it possible to anticipate this difficulty, avoid the shutdown of the channel and limit the resulting additional costs.

Shared housing project
The Arbor

The building appears to belong to the company Habitalys, which is expected to begin work in October. A meeting was scheduled for September 22nd to review the project's progress.

As a reminder, the road and pathway construction work is the responsibility of the municipality. This work will be carried out during 2027.

It is unfortunate that the market was launched hastily by the previous team, as this situation is now putting us in difficulty regarding the postponement of subsidies as well as the preparation of the 2027 budget.

Former barracks
May 8th Square

The long-term lease was signed by the previous municipality. The renovation work is the responsibility of the ACAV association.

We are currently awaiting their approval of the building permit.

Maintenance and repair work

After reviewing the budget, we will schedule several building and road renovation projects.

Initially, we will proceed with the repair of our church chapel in order to put an end to the infiltrations.

rainwater harvesting and preserving the building. Roadworks will also be carried out on Avenue Mondésirand on Chemin de Portoly.

Heritage Study

We have launched a study covering all of our buildings in order to establish a comprehensive overview of our assets and to have a long-term vision of the work and projects to be carried out.

This study will notably make it possible to identify and prioritize needs, estimate the costs of different projects and define a multi-year investment program.

The study is funded by Banque des Territoires up to 50%, for an amount of € 33,000 .

Conclusion

In conclusion, the delay of these various projects, which we did not initiate, is penalizing us in our forecasts, particularly concerning France Services and La Tonnelle, whose delivery is postponed.

On the other hand, we cannot let us take into account the requests of the residents and carry out the necessary maintenance and renovation work.

And this is part of the "Living Well in Monflanquin" initiative.

GREENING

OUR TOWN IS GOING GREEN!

Beautify, refresh, preserve: the municipality is embarking on a new stage in the greening of the town, in consultation with its residents.

The quality of our living environment also depends on the space given to greenery in our streets and public spaces. The municipality therefore wishes to increase the amount of greenery in the town center, prioritizing planting directly in the ground whenever possible.

This approach contributes to the beautification of our village, but also to the preservation of biodiversity, to the improvement of to the comfort of the inhabitants and to the objectives of saving water and enhancing our heritage, particularly with regard to the criteria taken into account by our labels.

The presence of vegetation also helps to create pockets of coolness and improve the landscape appearance of our streets. But every street is different. That's why this approach must be carefully considered and adapted to the specific characteristics of our town.

The objective is to add greenery without hindering movement, access to dwellings, the various uses of the village or the interventions necessary for its maintenance.

THE GREENING OF OUR TOWN WILL NOT HAPPEN WITHOUT YOU.

Residents will be invited to give their opinions, share their needs and provide feedback on areas that could be planted with greenery.

The planting proposals will thus be developed based on the technical study.

Street by street, planting by planting, with the residents, our village can thus become greener, more pleasant and more welcoming.

GREENING IS ALSO ABOUT PREPARING THE VILLAGE OF TOMORROW.

Hamlets of the News OF OUR

In recent weeks, we have been meeting with residents of Roquefère, Labarthe, Corconat, and Lamothe-Feyt to gather their needs and identify the work that needs to be done. This on-the-ground presence allows us to prioritize tasks and schedule interventions according to their urgency.

Several projects have already been completed: the floor of the church porch in Roquefère has been repaired, and the street sweeper has been in Corconat, Labarthe, and Lamothe-Feyt. In Lamothe-Feyt, the monthly meals have become a real social gathering. We are also considering ways to beautify the entrances to our hamlets, taking inspiration from what has been done in the Bastide.

This dynamic relies on the commitment of the representatives in each hamlet, essential links between residents and the municipality. We are continuing this approach of working closely with the community, listening to everyone, to advance the projects of our villages step by step.

MY AMAZING BUYER

Monflanquin is preparing for the future of shops

The transfer of businesses is essential for the vitality of our community. It helps to preserve jobs, skills and local services, while contributing to the airiness and dynamism of our base.

Monflanquin is participating in the "My Incredible Entrepreneur" initiative, supported by Incroyable Territoire and its partners. Two businesses in our town have been selected for this program, which facilitates connections between business owners looking to transfer their businesses and prospective buyers. These are the bakery owned by Michel and Élise POUSSOU and the advertising agency PUB-VISION owned by Pierre-Jean VOLLE, both of whom wish to sell their businesses in order to retire.

Originally scheduled for the end of September, the meetings between sellers and buyers have been postponed until the beginning of December. This additional time will allow for a broader search for candidates and foster meaningful discussions about takeover projects. The communication campaign continues on social media. You can contribute by sharing Radio 4's posts or simply by spreading the word.

The municipality welcomes this mobilization in support of the local economy.

In order to encourage potential buyers to come and settle in Monflanquin, the town hall has produced a video* presenting our town, our shops, our associations, our schools and our services with the aim of making people want to come and live in Monflanquin.

WELCOME TO THE NEWCOMERS TRADERS AND CRAFTSMEN

THE PARENTHESIS

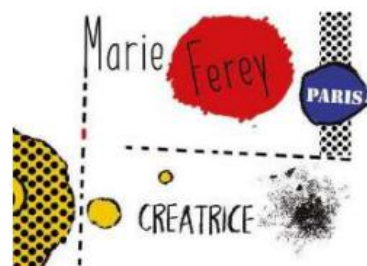

Pierre-Alexandre GAURIER is the new owner of the La Basède des Oliviers hotel-restaurant, located at the entrance to the basède. He has given it his personal touch, evoking nature and tranquility, and invites you to come and enjoy a "Parenthèse," the name he has given to this beautiful establishment, which opened on July 21st.

FEREY CREATION

Marie FERÉY, a graduate of ESAA Du-perré in Paris, has set up her boutique-workshop of hand embroidery at 36 rue St Pierre. Her only credo: colour!

And that is exactly what is offered in Marie's boutique, an art arsenal.

FRÉDÉRIQUE'S CABIN

Frédérique MARKIEWICZ, a practitioner specializing in lymphatic drainage Éque, certified in the Renata França method, sets up "La cabane de Frédérique", her wellness practice in the trees.

You can find it near Lamothe-Feyt.

PREVENTION Plan

Municipal Safeguard

We have updated our Municipal Emergency Plan (PCS), which has also been triggered several times during heatwave periods. We therefore contacted the vulnerable people registered at the Town Hall to check on them, ensure their comfort and verify if they had any specific needs.

In total, 99 people were contacted several times by elected officials during the heatwave.

Do not hesitate to make yourself known at the Town Hall if you are a vulnerable or isolated person, in order to be registered on this list and so that the Town Hall can, if necessary, contact you.

We are also including with this bulletin a booklet, "The Family Safety Plan", to be completed by each family.

This booklet presents the steps and preparations necessary to deal with a possible disaster, according to the different major risks.

Equip yourself

To know

Prepare

THE WORD OF THE

MINORITY

Since March 15th, we have participated in eight committees, dedicated to economic development, public works, and agriculture, for example, as well as three board meetings (CCAS and Pollen). These bodies are intended to facilitate genuine dialogue prior to decisions and provide everyone with the information necessary to carry out their duties.

We observe regular and data-driven municipal communication with the public, particularly on social media. However, we regret that discussions in committee are not always accompanied by equally precise, complete, and rigorous information on projects and their implications.

Some choices also raise questions for us, notably the abandonment of the Camping-Car Park project, which could expose the municipality to financial penalties and a loss of revenue estimated at €20,000 per year, as well as the postponement of the development of the La Tonnelle public park, at the gates of the base.

We will remain present, available, and proactive in contributing to the future of Monflanquin. And of course, we are listening to each and every one of you.

Fausène CHATELAIN mairie.fc@monflanquin.fr

SCHOOLS

On September 1, 2026, the schoolchildren of our municipality returned to school for a new academic year. This school year involves 159 students at the primary school.

This year , 64 children are enrolled in **the preschool** : 23 students in the first year (petite section), including 2 new students who will arrive in January 2027; 21 students in the second year (moyenne section); and 18 students in the final year (grande section).

At **the elementary school**, 95 students returned to school: 22 in CP (first grade) , 20 in CE1 (second grade) , 27 in CE2-CM1 (third and fourth grades) , and 26 in CM1-CM2 (fourth and fifth grades).

Even though the decrease in projected staff numbers has led to the elimination of one position, we are pleased to have welcomed 6 new students this year.

The municipality continues its commitment to supporting children and families,

teaching and supervisory teams. It participates in particular up to 50% for the provision of supplies, the provision of extracurricular staff, the maintenance of premises and the provision of all transport (school outings, sports in the gymnasium, swimming pool, etc.).

We will support the various educational projects proposed by the teachers throughout this new school year.

A welcome booklet has been prepared by the municipality to gather various information for parents. This booklet was given to parents in each student's notebook on the first day of school.

The summer holidays were also an opportunity to carry out several works to improve the comfort and safety of the children: installation of blackout films, painting work, installation of a safety barrier at the nursery school and other works will be carried out during the All Saints' holidays in particular the renovation of the elementary school playground at the level of the area around the trees.

At La Cannée,we continue to offer children varied, balanced, and high-quality meals. We will prioritize organic and local products as much as possible in order to raise children's awareness of healthy eating while supporting short supply chains.

We wish all students a wonderful school year, full of discoveries, successes and beautiful moments shared!

DUTY REMEMBRANCE

Perpetuating the duty of remembrance with the students

On the occasion of the May 8th commemoration, the municipality wished to involve elementary and middle school students in this duty of remembrance. We wish to repeat this initiative for the Armistice Day commemoration on November 11th, and you are cordially invited to participate in this ceremony with us.

SPORT

THE MONFLANQUINE STRIDE: SPORT AT THE HEART OF LIFE LOCAL

On September 6th, Monflanquin was alive with the sounds of running as the 19th edition of the Foulées Monflanqui-noises, organized by the Monflanquin Athletic Club 47 (MAC 47), took part in this wonderful sporting and friendly event. Nearly 400 runners, along with walkers and young participants, participated in this beautiful sporting and friendly day.

20km trail, 12km trail, 5km race, children's walk and race: the different events allow everyone to participate according to their desires and abilities. Special attention is given to children and teenagers, with a race dedicated to them. A great opportunity to discover the joy of running, to get active and to share a collective moment.

This success is also thanks to a dynamic club and its volunteers, who keep running alive throughout the year. With Jean-Pierre COSTES and Patrice MARQUIS as co-presidents, MAC 47 continues its development and is already preparing for the future.

Beyond performance, the Monflanquin Fun Run is a true moment of encounter and also a way to showcase our magnificent landscapes and heritage.

The presence of many elected officials at the awards ceremony around the podium highlighted the municipality's support for community and sports life. The Monflanquin Town Hall warmly thanks MAC 47, its volunteers, the participants and all those who contribute to the success of this event.

See you in 2027 for the 20th edition!

POOL MUNICIPAL

The Monflanquin municipal swimming pool has seen very high attendance during this sweltering summer, with nearly 9,700 entries.

Our maintenance staff and receptionists ensured the public was welcomed in the best possible conditions. The lifeguards and swimming attendants, for their part, ensured the vigilance of the pool and the safety of our swimmers. A change of lifeguard had to be made at the end of August to guarantee continued supervision under good conditions.

This winter, we will be bringing the pool's technical room up to code. In addition, a study on shading around the pool is currently underway to improve the facilities for next season.

The municipality remains fully committed to our municipal swimming pool, which attracts more and more visitors each year, including many users from outside the town. We will continue to do everything possible to improve and maintain this facility in order to offer residents and visitors a quality service.

Monflanquin hosts a Franco-Malagasy medical day

Around fifty healthcare professionals participated in the second medical day of the Franco-Malagasy Association of Pneumology (AFMAP), organized on Saturday, September 26 in Monflanquin.

The Consuls' Hall hosted this meeting dedicated to exchanges between French and Malagasy healthcare professionals. Chaired by Dr. Razafindramboa, AFMAP brought together several speakers for the occasion, offering presentations and discussion sessions.

Tuberculosis in Madagascar was among the topics discussed during the day. Several Malagasy professionals participated via videoconference to share their experience and knowledge with the participants present in Monflanquin.

Medical booths set up in the Aquitaine room also allowed professionals and participants to learn about various health-related topics.

In the afternoon, the speakers explored the fortified town during a guided tour led by Janouille. This discovery of the local heritage complemented the day's program.

Isabelle Kempen, deputy mayor, emphasized the value of hosting this event in Monflanquin. She specifically highlighted the importance of discussions regarding access to healthcare and the presence of medical professionals in rural areas.

The day ended with a musical evening organized by AFMAP, bringing participants together in a friendly setting.

FROM THE FORUM OF ASSOCIATIONS

AT THE FIREWORKS DISPLAY, THE PUBLIC

ANSWERED PRESENT

On September 12th, the first edition of the Associations Forum attracted many visitors who came to discover the richness of the local associative fabric. Sport, culture, leisure, solidarity, commitment: many associations were gathered to present their activities and meet the public.

But the interest of this first edition is not limited to visitors. The associations themselves greatly appreciated this time to meet, around a convivial lunch, which allowed them to exchange ideas, get to know each other better and create new links between sports and cultural associations and the many other structures that participate in the life of the community.

The evening then took a different turn, with a fireworks display launched for the first time from Lake Coulon. Once again, the public responded enthusiastically: many spectators gathered around the lake to watch the show and discover this new location, particularly appreciated for the fireworks display.

Associations brought together, residents who came to meet them and a large audience gathered around a show: a day that fully illustrates the Good Life in Monflanquin.

OCTOBER Pink

- ♥ Monflanquin is mobilizing for Pink October!
For the first time, the Municipality is joining forces with residents, associations, businesses and local stakeholders for Pink October, the month dedicated to raising awareness about breast cancer screening.
- ♥ On the agenda: town hall and surrounding area illuminated in pink, awareness and support campaign in the market square Thursday, October 8, from 9 a.m. to 12 p.m., proposed by Descaratz; solidarity walk on Sunday, October 11, with the Marcheurs des Basèdes; football matches on October 17 and 18; rugby activity with the 4 Cantons BHAP; collection boxes at businesses for the benefit of the association "Les Elles Roses 47 "; and distribution of pink ribbons.
- ♥ On November 6th, the MJC will also be showing a film.
This first edition will be placed under the banner of solidarity, prevention and screening.
- ♥ Come one, come all to participate and bring Pink October to life in Monflanquin!
Let's see Monflanquin in a rosy light together!

TRIBUTES

TRIBUTE TO MR. JANSOU

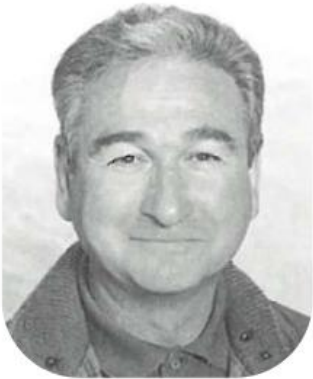

Elected to the municipal council in 1983 and constantly re-elected until 2008, Pierre JANSOU, known as Pierrot, served the municipality for twenty-five years. Deputy mayor since 1989, he ensured, during his three terms as deputy, the continuity of the town hall every month.

Primarily responsible for monitoring the progress of the work, he, along with Mr. Guy FRAIGNEAU,

He provided solutions to many everyday problems encountered by the residents. Discreet, efficient, and dedicated: these qualities will forever be associated with his name.

In the 1980s, he also presided over USM Rugby.

The municipality extends its sincere condolences to his entire family.

TRIBUTE TO PAT RICKFIOL

Dramatically struck by the disappearance of one of its most dedicated members, the merchants and merchants of Monflanquin wholeheartedly join in the grief of Patrick FIOL's family.

A pillar of the association for many years, successively secretary, president, then head of the two days of the "Belle Brocante" in July, Patrick has left his mark on each of his commitments.

He will remain for all of us a model of selflessness, generosity and discreet, but oh so effective, volunteer work.

Extremely generous, always true to the motto "friends first," Patrick was a giant with a huge heart... and yet so fragile. His passing leaves a gaping void within the Monflanquin base.

The members of ACAM mourn today a colleague, a friend, a funny man, deeply generous, whose friendship was sincere and unwavering.

Thank you, Patrick, for your commitment, your loyalty, your humor and everything you have given to others. You will remain in our hearts and in the memory of our association for a long time.

Association of Merchants and Arésansof Monflanquin

ACAM

The municipality of Monflanquin also pays tribute to Patrick FIOL, whose commitment helped to sustain our base. It offers its sincerest condolences to his family, friends, and all members of ACAM.

BASTIDES IN FESTIVAL

in Monflanquin · Saturday 24 & Sunday 25 October 2026

2 days to celebrate medieval heritage in the heart of the Southwest!

ALL WEEKEND

Saturday 24th and Sunday 25th October
